

Study programme **Veterinary medicine**

Study subjects and credits

1 year

No.	Subject/module	Credits
1.	Introduction to Education and Information Technology	5
2.	Analitical Chemistry	3
3.	Anatomy	12
4.	Cell Biology	3
5.	Lithuanian for Foreign Students	11
6.	Applied Biology and Laboratory Animals	5
7.	Histology and Embryology	5
8.	Genetics	5
9.	Ecology and Protection of Nature	3
10.	Biological Physics	5
11.	Latin for Foreign Students	3
Total:		60

2 year

No.	Subject/module	Credits
1.	Anatomy	4
2.	Histology and Embryology	3
3.	Biochemistry	6
4.	Biomathematics and Statistics	4
5.	Animals Physiology	10
6.	Feeds and Animal Nutrition	5
7.	Lithuanian for Foreign Students	6
8.	Veterinary Hygiene and Animal Welfare	9
9.	Animal Production	3
10.	Animal Breeding	4
11.	Agricultural Economic and Management	3
12.	Practical skills 1	3
Total:		60

3 year

No.	Subject/module	Credits
1.	Feeds and Animal Nutrition	4
2.	Veterinary Immunology and Virology	9
3.	Veterinary Microbiology	7
4.	General Pathology	10
5.	Veterinary Pharmacology and Pharmacy	8
6.	Veterinary Radiobiology and X-ray Imaging	3
7.	Clinical Diagnostics and Biochemistry	10
8.	Veterinary Professional Ethics and Career Planning	3
9.	Elective subject (4)	3
10.	Practical skills 2	3
Total:		60
